Experience

Data Analysis Using R, Python, Excel

Jun 2025 – Jul 2025

Science Tech Institute

Virtual

- Analyzed large datasets using Python (pandas, NumPy) and SQL to identify trends, patterns, and actionable insights, improving reporting efficiency by 30%
- Created interactive dashboards and visual reports using tools like Excel to support data-driven decision-making across departments.
- Collaborated with cross-functional teams to clean, transform, and validate data, ensuring data accuracy and consistency for business intelligence tasks.

Technical Skills

Version Control: Git, GitHub

Languages: Python, C/C++, SQL

Frameworks: TensorFlow, Keras

Developer Tools: Google Cloud Platform, VS Code, PyCharm, Azure, Oracle Cloud

Libraries: Pandas, NumPy, Matplotlib, Scikit-learn, OpenCV

Education

Amity University

Lucknow, UP

Bachelor of Technology in Artificial Intelligence

2022–2026

Saint Vivekananda Sr. Sec. Public School

Etawah, UP

Higher Secondary Certificate

2020

Saint Vivekananda Sr. Sec. Public School

Etawah, UP

Secondary School Certificate

2018

Projects

Used Car Price Prediction Model | Python, Machine Learning, Jupyter Notebook

Jun 2024 – Aug 2024

- Conducted exploratory data analysis (EDA) to identify key price influencers, such as mileage, age, brand, and condition.
- Trained and optimized various regression models (Linear Regression), achieving 85% R^2 score on the test set.
- Applied cross-validation and hyperparameter tuning (GridSearchCV) to improve model generalization.

Certifications

- Google Cloud Computing – NPTEL, 2024
- Data Analysis using Python, R, Excel – Science Tech Institute, 2025
